Education

St.Xavier's School
CBSE Board, Class 10
2007-2018 | Ballia ,U.P

Sunbeam School
CBSE Board, 10+2
2018-2020 | Ballia, U.P

Galgotias College of Engineering And Technology
Bachelor of Technology In Computer Science Engineering (Data Science)

Expected graduation in 2025 | Greater Noida, India

Cum. GPA: 7.0 / 10.0

Technical Projects

ZAIKA KITCHEN- FOOD DELIVERY WEBSITE
HTML, CSS, Javascript, ReactJS | Github

• Built interactive UI with ReactHooks, Redux, and Reusable Components, ensuring efficient State Management and promoting code reusability.

• Optimized performance using Bundlers & Babel, Dynamic UI, and Code Splitting, resulting in a scalable and maintainable application.

• Utilized a range of React features, including Functional Components, Props & State, React Router, and React Testing Library, to create testable application with a focus on scalability.

Extracurricular

- **Google Cloud Computing Foundation & Generative AI Arcade Game** certifications earned during Study Jams 2023, showcasing advanced proficiency in cloud solutions.

- Participated in 5+ study sessions and 3+ online workshops to enhance skills.

- C++, Python

Markup and Style Languages
- HTML5, CSS

Libraries and Frameworks
- JavaScript, React.js, Django, Tailwind

Backend Technologies
- Node.js

Database Technologies
- MySQL

Version Control
- Git, GitHub

Design Portfolio Website
React.js | JavaScript | Tailwind | GitHub

- This project involves creating a professional design portfolio website using modern web development technologies including React.js, JavaScript, Tailwind CSS, and GitHub.

- The goal is to build a responsive and visually appealing portfolio that effectively showcases design projects and skills.

- Use Tailwind CSS for a clean, modern design with consistent spacing, colors, and typography.
